The Future of Work Company

PROGRAM MANAGEMENT DIVISION

Our Program Management Division offers a plethora of managed programs from project, construction, move management, facility management, strategy and operations support solutions to attend to your facility needs.

Using a Program Management approach, we customize solutions to meet our client's needs.

In some cases, we may oversee the execution of several interrelated projects, or just handle one project at a time. Our experienced team has a demonstrated track record of success in project delivery accomplished over many years. A strong indicator of this is demonstrated by our many valued repeat clients who have trusted us over the years.

The Future of Work Company

WHAT OUR CLIENTS ARE SAYING

We brought The Impec Group, Project Management Division on board late 2021 to partner with us on a large-scale project. We needed to prepare to have 1,000+ staff come into the office to pack up/purge/shred/trash, etc. as we were slowly beginning to prepare for employees return to work.

It was a daunting task, and we weren't sure where to begin. Add to the fact that this was during COVID and social distancing, it was a huge undertaking. The Impec Group team was amazing!

April R,
Major Healthcare
Facilities Operations Manager
